Greensboro, North Carolina

Dear Ms. Harris:

Kleinfelder has completed the Phase I Environmental Site Assessment of the referenced site. The enclosed report summarizes our findings.

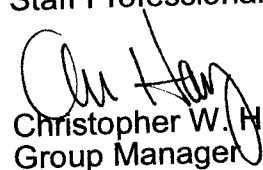

Kleinfelder appreciates this opportunity to provide this service to you. Should questions arise or additional information be required, please contact the undersigned.

Very truly yours,

KLEINFELDER SOUTHEAST, INC.

PHASE I ENVIRONMENTAL SITE ASSESSMENT

**Bingham Park
Bingham Street and South English Street
Greensboro, North Carolina**

Kleinfelder Project No. 110219

April 27, 2010

Signature of Environmental Professional

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in Section 312.10 of CFR 312. I have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Tina M. Stewart

1.0 EXECUTIVE SUMMARY

A Phase I Environmental Site Assessment (ESA) was performed for the City of Greensboro (Client) Brownfields Program for the Bingham Park property located between Bingham Street and South English Street in Greensboro, North Carolina. This report was prepared using the American Society for Testing and Materials (ASTM), *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* E 1527-05. This executive summary is provided for convenience and should not substitute for review of the complete report, including all appendices.

1.1 SITE

The site is located between Bingham Street and South English Street and approximately 200 feet north of Spencer Street in Greensboro, North Carolina. The site consists of six tax parcels referred to as "Bingham Park".

An incinerator was shown at the site in the 1925 and 1950 Sanborn Fire Insurance Map. The 1931 City Directory has a listing for "Greensboro City Incinerator" on Bingham Street that does not have a street address.

Primitive roads and potentially several small buildings were located on-site in 1937. Bingham Park was developed in 1972. The four northeastern parcels have been undeveloped dating back to 1937 and were not developed when Bingham Park was established.

At the time of our site reconnaissance, the majority of the site consisted of an open grass-covered park with a picnic shelter, baseball field, basketball court, and a walking trail. The picnic shelter had restrooms and a storage room that remain locked and not accessible to the public. A stream was located along the southern portion of the developed park. Broken pieces of construction material including ceramic tile and brick and garbage (glass bottles, plastic containers, broken glass, used tire, lawnmower handle) were observed along the stream and up to 20 feet away from the stream on the northern embankment. Household trash was also observed in and along the stream and on the embankment. A smaller parcel east of the developed

park also was developed with a portion of the walking trail. The four northeastern parcels were undeveloped and had a stream along the western side. Household garbage was scattered across the four parcels including at least three used tires.

1.2 SURROUNDING PROPERTIES

The site is bound to the north by a cemetery and an apartment complex; to the east by South English Street, apartments, and an undeveloped property; to the south by apartments, a residential structure, and a church; and to the west by Bingham Street, a cemetery, undeveloped properties, and residential properties.

1.3 CONCLUSIONS

Kleinfelder performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E 1527-05 of the six tax parcels referred to as Bingham Park and located between Bingham Street and South English Street in Greensboro, North Carolina. Any exceptions to, or deletions from, this practice are described in Section 8.5 of this report. This assessment has revealed no evidence of recognized environmental conditions (RECs) in connection with the property except for the following:

- Historic use of the property as a waste processing and disposal facility with an unknown waste stream.

2.0 INTRODUCTION

The following report is a summary of work performed using the guidelines set forth in the ASTM Standard E 1527-05, *Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process* (ASTM Standard). This report also generally conforms to the ASTM Standard's suggested table of contents. Minor format modifications have been made to the ASTM Standard's suggested table of contents by Kleinfelder to assist in better reading and understanding the report findings.

2.1 PURPOSE

The purpose of this Phase I ESA is to identify, to the extent feasible pursuant to the scope of work defined in our Proposal Number GSO10P058, dated March 12, 2010, and limitations discussed in this report, RECs and other environmental issues related to the subject site. As defined in the ASTM Standard, a REC is:

The presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the property or into the ground, ground water, or surface water of the property. The term includes hazardous substances or petroleum products even under conditions in compliance with laws. The term is not intended to include de minimis conditions that generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be de minimis are not recognized environmental conditions.

This report describes Kleinfelder's assessment methodology and documents our assessment findings, subject to the limitations presented in Section 2.5 of this report.

2.2 DETAILED SCOPE OF SERVICES

The following sections describe Kleinfelder's work scope:

- Section 2, **Introduction**, includes a discussion of the purpose/reason for performing the Phase I ESA, additional services requested by the Client (i.e., an evaluation of business environmental risk factors associated with the subject site), significant assumptions (i.e., property boundaries if not marked in the field), limitations, exceptions, and special terms and conditions (i.e., contractual), and user reliance parameters.
- Section 3, **Site Description**, is a compilation of information concerning the site location, legal description (if provided), current and proposed use of the subject site, a description of structures and improvements on-site at the time of Kleinfelder's assessment, and adjacent property use.
- Section 4, **Records Review**, is a compilation of Kleinfelder's review of several databases available from Federal, State, and local regulatory agencies regarding hazardous substance use, storage, or disposal at the subject site; and for off-site facilities within the search distance specified in the ASTM Standard. Records provided by the Client are summarized and copies of relevant documents are included in the appendices of this report. Physical setting sources (including topography, soil and groundwater conditions) and typical Client-provided information (i.e., title records, environmental liens, specialized knowledge, valuation reduction for environmental issues, and owner, property manager, and occupant information) are also summarized in this section. Other interviews with people knowledgeable about the subject site (including the client) are included in Section 7.
- Section 5, **History of the Site**, summarizes the history of the subject site and adjacent properties. This site history is based on various sources which may include: a review of historical aerial photographs, Sanborn Fire Insurance Maps, city or suburban directories, historical topographic maps, building department records, and results of previous site assessments.
- Section 6, **Site Reconnaissance**, describes Kleinfelder's observations during the site reconnaissance. The methodology used and limiting conditions are described in this report.
- Section 7, **Interviews**, is a summary of telephone and personal interviews conducted with "Key Site Managers" that may include the owner/manager of the

facility, occupants/tenants, local government officials, and the Client. Additional interview sources may be contacted if "Key Site Managers" are not available prior to production of this report, and may include adjacent landowners and people with historical knowledge of the area.

- Section 8, **Evaluation**, is a presentation of our findings and opinions regarding the information in Sections 3 through 7, and presents our conclusions regarding the presence of RECs connected with the site, and recommendations if required by the Client.

Pertinent documentation regarding the subject site is included in the appendices of this report.

2.3 ADDITIONAL SERVICES

Kleinfelder contacted local law enforcement officials about the presence of controlled substances at the site or in the vicinity. A summary of the interview is included in Section 5.5. A review of endangered species and historic/cultural resources were completed in addition to the standard ASTM scope of services. The endangered species survey and historic/cultural resources survey are included as Sections 6.5 and 6.6, respectively.

An evaluation of business environmental risk associated with the subject site was not included in Kleinfelder's scope of work. The scope of this ESA does not incorporate ASTM Standard non-scope considerations, such as asbestos-containing materials, radon, lead-based paint, lead in drinking water, wetlands, regulatory compliance, industrial hygiene, health and safety, ecological resources, indoor air quality, and high voltage power lines.

2.4 SIGNIFICANT ASSUMPTIONS

The subject site consists of six tax parcels referred to as "Bingham Park". The Parcel Identification Numbers (PINs) include 7874641800, 7874545922, 7874559138, 7874559233, 7874559238, and 7874559333 and is hereafter referred to as the "site". The majority of the property was developed with a public park in 1972 and has four undeveloped parcels that are also considered part of Bingham Park. Inspection of the property prior to development of the property was not performed. Information

regarding prior development was obtained by reviewing aerial photographs and from interviews of persons knowledgeable about the site's history.

2.5 LIMITATIONS AND EXCEPTIONS

Phase I ESAs are non-comprehensive by nature and may not identify all environmental problems, and will not eliminate all risk. This report is a qualitative assessment. Kleinfelder offers a range of investigative and engineering services to suit the needs of our clients, including more quantitative investigations. Although risk can never be eliminated, more detailed and extensive investigations yield more information, which may help the Client understand and better manage risks. Since such detailed services involve greater expense, we ask our clients to participate in identifying the level of service, which will provide them with an acceptable level of risk. Please contact the signatories of this report if you would like to discuss this issue of risk further.

Kleinfelder performed this Phase I ESA in general accordance with the guidelines set forth in the ASTM Standard, and the proposed scope subsequently approved by our Client. No warranty, either expressed or implied, is made. Environmental issues not specifically addressed in this report were beyond the scope of our services and not included in our evaluation.

This report may be used only by City of Greensboro and the U.S. Environmental Protection Agency (EPA) and only for the purposes stated within a reasonable time from its issuance, *but in no event later than one year from the date of the report*. Land or facility use, on- and off-site conditions, regulations, or other factors may change over time, and additional work may be required with the passage of time. Since site activities and regulations beyond our control could change at any time after the completion of this report, our observations, findings, and opinions can be considered valid only as of the date of the site visit. This report should not be relied upon after 180 days from the date of its issuance (ASTM Standard, Section 4.6). Any party other than stated above whom wishes to use this report shall notify Kleinfelder of such intended use. Based on the intended use of the report, Kleinfelder may require that additional work be performed and that an updated report be issued. Non-compliance with any of these requirements by the said parties or anyone else will release Kleinfelder from any liability resulting from the use of this report by any unauthorized

party, and said parties agrees to defend, indemnify, and hold harmless Kleinfelder from any claim or liability associated with such unauthorized use or non-compliance.

2.6 SPECIAL TERMS AND CONDITIONS

No special terms and conditions in addition to those discussed previously were agreed to either by the Client and Kleinfelder in our Proposal Number GSO10P058, dated March 12, 2010.

3.0 SITE DESCRIPTION

The site description is presented in this section and describes the condition of the site at the time of the Phase I ESA. The site location is shown on Figures 1 and 2. Tables 3-1 through 3-4 summarize the physical characteristics of the site and adjacent properties.

3.1 LOCATION AND LEGAL DESCRIPTION

The information presented in Table 3-1 describes the physical location and legal description of the site. This information was obtained from review of various maps (such as topographic maps and tax assessor maps), aerial photographs, public records at city and/or county offices, interviews, and/or information provided by the Client.

**TABLE 3-1
LOCATION AND LEGAL DESCRIPTION**

PARAMETER	INFORMATION/COMMENTS
ADDRESS	400 Open Bingham Street, and 328, 326, 324, 322, and 600-698 South English Street
LOCATION	Greensboro, North Carolina
ASSESSOR'S PIN NO.	7874545922, 7874559138, 7874559233, 7874559238, 7874559333, 7874641800
LEGAL DESCRIPTION	Lot # Perkins St., Lot # Cottage Grove, Lot # 52 BB Young Cottage Grove, Lot # 53 BB Young Cottage Grove, Lot # 54 BB Young Cottage Grove, and Lot # .42 AC Cottage Grove
ACREAGE	7.4 Acres, 0.27 Acres, 0.26 Acres, 0.26 Acres, 0.25 Acres, and 0.42 Acres

3.2 CURRENT/PROPOSED USE OF THE PROPERTY

Land use on-site and in the general vicinity appeared to be commercial and residential at the time of Kleinfelder's assessment. Current and proposed uses are described in Table 3-2.

**TABLE 3-2
CURRENT/PROPOSED USES**

PARAMETER	GENERAL OBSERVATIONS
CURRENT USE	Park
PROPOSED USE	Same use as a park

3.3 DESCRIPTION OF STRUCTURES/IMPROVEMENTS

Structures and/or improvements observed on-site at the time of Kleinfelder's site reconnaissance are described in Table 3-3.

**TABLE 3-3
STRUCTURES/IMPROVEMENTS**

PARAMETER	GENERAL OBSERVATIONS
STRUCTURES	One-story 400 square foot wood-framed picnic shelter with concrete block restrooms and a storage room constructed on a concrete slab.
IMPROVEMENTS	Baseball field, basketball court, stream across southern portion of developed part of park, and a walking trail.

3.4 CURRENT USES OF ADJACENT PROPERTIES

Kleinfelder performed a drive-by survey of the properties immediately adjacent to the subject site on April 6, 2010. A summary of the adjacent properties is presented in Table 3-4 and shown on Figure 3.

**TABLE 3-4
ADJACENT PROPERTIES**

Direction	LAND USE DESCRIPTION
NORTH	Cemetery and an apartment complex.
EAST	Apartments and an undeveloped property.
SOUTH	Apartments, a residential structure, and a church.
WEST	Cemetery, undeveloped properties, and residential properties.

4.0 RECORDS REVIEW

4.1 STANDARD ENVIRONMENTAL RECORD SOURCES

The purpose of the records review is to obtain and review records that would help to evaluate RECs of potential concern in connection with the subject site and bordering properties.

Federal, state and local regulatory agencies publish databases or "lists" of businesses and properties that handle hazardous materials or hazardous waste, or are the known location of a release of hazardous substances to soil and/or groundwater. These databases are available for review and/or purchase at the regulatory agencies, or the information may be obtained through a commercial database service. Kleinfelder contracted a commercial database service, Environmental Data Resources, Inc. (EDR), of Milford, Connecticut to perform the government database search for listings within the appropriate ASTM minimum search distance of the site. A description of the types of information contained in each of the databases reviewed and the agency responsible for compiling the data is also included in the EDR Radius Map Report. The EDR database search results presented in Appendix A include the databases summarized in Table 4-1.

**TABLE 4-1
DATABASE SUMMARY**

DATABASE	ASTM SEARCH RADIUS	NUMBER FOUND
CERCLIS	0.5 miles	0
CERCLIS-NFRAP	0.5 miles	0
NPL	1.0 mile	0
Delisted NPL	1.0 mile	0
RCRA Generator	Site and Adjacent	0
RCRA – TSD	0.5 miles	1
ERNS	Site Only	0
RCRA CORRACTS	1.0 mile	1
LUSTs	0.5 miles	21

**TABLE 4-1
DATABASE SUMMARY**

DATABASE	ASTM SEARCH RADIUS	NUMBER FOUND
USTs	Site and Adjacent	0
Voluntary Cleanup	0.5 miles	0
SHWS	1.0 mile	4
SWF/LF	0.5 miles	2
Brownfield Sites	0.5 miles	0
HSDS	0.5 miles	2
FINDS	Site Only	0
Dry Cleaner Sites	0.25 miles	0
IMD (non-duplicate)	0.5 miles	3

The locations and a brief description of the sites found by EDR are presented below.

4.1.1 COMPREHENSIVE ENVIRONMENTAL RESPONSE, COMPENSATION, AND LIABILITY INFORMATION SYSTEM

No CERCLIS listings were identified on or within 0.5 miles of the site.

4.1.2 CERCLIS - NO FURTHER REMEDIAL ACTION PLANNED

No CERCLIS-NFRAP listings were identified on or within 0.5 miles of the site.

4.1.3 NATIONAL PRIORITIES LIST

No NPL listings were identified on or within 1.0 mile of the site.

4.1.4 DELISTED NATIONAL PRIORITIES SITE LIST

No Delisted NPL listings were identified on or within 1.0 mile of the site.

4.1.5 RESOURCE CONSERVATION AND RECOVERY ACT INFORMATION

No listings for hazardous waste generators were identified for the site or adjacent properties.

No TSD listings were identified on the site. One TSD listing was identified for Axton-Cross Company, located 0.5 miles east of the site at 3001 Holts Chapel Road.

4.1.6 EMERGENCY RESPONSE NOTIFICATION SYSTEM

The site was not listed on the ERNS list.

4.1.7 CORRECTIVE ACTION REPORT

No CORRACTS listings were identified on the site. One CORRACTS listing was identified within 1.0 mile of the site and included Axton-Cross Company located 0.5 miles east of the site at 3001 Holts Chapel Road.

4.1.8 LEAKING UNDERGROUND STORAGE TANKS

No LUST listings were identified on the site. Twenty-one LUST listings were identified for properties within 0.5 miles of the site and are summarized below.

4.1.8.1 "Open" Incidents

An "Open" incident indicates a release of hazardous materials to the soil and/or groundwater that has not been addressed to the satisfaction of NCDENR. The following listing(s) were identified:

- Morningside Homes-704 Moton, located 0.3 miles southwest of the site at 704 Moton Drive;
- Peek (Mary) Property, located 0.4 miles northwest of the site at 2011 East Market Street;
- Will-O-Haven Rest Home, located 0.4 miles of the site at 510 Banner Avenue;

- Brown Transport Corporation, located 0.4 miles east of the site at 503 Banner Avenue;
- Eastside Grocery, located 0.4 miles northwest of the site at 1939 East Market Street; and
- English Market Shopping Center, located 0.45 miles north of the site at 2316 East Market Street.

4.1.8.2 "Closed" Incidents

A "Closed" incident indicates that contamination may have been detected, but has subsequently been addressed to the satisfaction of NCDENR. The following listing(s) were identified:

- Morningside Homes-1902 Carver, located 0.3 miles southwest of the site at 1902 Carver Street;
- Morningside Homes-1804 Carver, located 0.3 miles southwest of the site at 1804 Carver Street;
- Morningside Homes-1915 Evans, located 0.3 miles southwest of the site at 1915 Evans Street;
- Morningside Homes-1910 Evans, located 0.3 miles southwest of the site at 1910 Evans Street;
- Morningside Homes-704 Bingham, located 0.3 miles southwest of the site at 704 Bingham Street;
- Morningside Homes-705 Bingham, located 0.3 miles southwest of the site at 705 Bingham Street;
- Morningside Homes-701 Moton, located 0.3 miles southwest of the site at 701 Moton Drive;
- Morningside Homes-803 Bingham, located 0.3 miles southwest of the site at 803 Moton Drive;
- Morningside Homes-1805 Evans, located 0.3 miles southwest of the site at 1805 Evans Street;
- Environmental Air Company, located 0.4 miles east of the site at 521 Banner Avenue;
- Western Rots Engravers, located 0.4 miles east of the site at 533 Banner Avenue;

- Brown Transport Corporation, located 0.4 miles east of the site at 503 Banner Avenue;
- Philistine Supermarket, located 0.4 miles southwest of the site at 1917 McConnell Road;
- Consolidated Freightways, located 0.45 miles northeast of the site at 415 Banner Avenue; and
- Consolidated Freightways-Non Regulated, located 0.45 miles northeast of the site at 415 Banner Avenue.

4.1.9 REGISTERED UNDERGROUND STORAGE TANKS

The Registered Underground Storage Tank Database identifies underground storage tanks (USTs) which have been reported by a business, whether currently in-use or removed. Aboveground storage tanks (ASTs) and some USTs are not required to be registered by the State, and, therefore, would not be included in the database. No UST listings were identified for the site or adjacent properties.

4.1.10 STATE INACTIVE HAZARDOUS WASTE SITES

No SHWS listings were identified on the site. Four SHWS listings were identified within 1.0 mile of the site and included:

- WRE Colortech, located 0.4 miles east of the site at 533 Banner Avenue;
- Westinghouse Electric, located 0.4 miles northeast of the site at 406 Banner Avenue;
- H.B. Fuller Company, located 0.55 miles northeast of the site at 3005 Holts Chapel Road; and
- W.F. Fancourt Company, located 0.55 miles northeast of the site at 408 Banner Avenue.

4.1.11 SOLID WASTE FACILITIES

No SWF listings were identified on the site. Two SWF listings were identified within 0.5 miles of the site and included:

- Salvage America, located 0.5 miles east of the site at 3001 Holts Chapel Road (also known as Axton-Cross Company); and
- Salvage America (historical landfill), located 0.5 miles east of the site at 3001 Holts Chapel Road (also known as Axton-Cross Company).

4.1.12 HAZARDOUS SUBSTANCE DISPOSAL SITES

No HSDS listings were identified on the site. Two HSDS listings were identified within 0.5 miles of the site and included:

- Westinghouse Electric, located 0.4 miles northeast of the site at 406 Banner Avenue; and
- Axton-Cross Company/VA Waters, located 0.5 miles east of the site at 3001 Holts Chapel Road.

4.1.13 FACILITY INDEX SYSTEM

No FINDS listings were identified for the site.

4.1.14 DRY CLEANER SITES

No dry cleaner sites were identified on or within 0.25 miles of the site.

4.1.15 INCIDENT MANAGEMENT DATABASE

No IMD listings were identified on the site. Three IMD listings were identified within 0.5 miles of the site that were not listed in Section 4.1.8 and included:

- WRE Colortech, located 0.4 miles east of the site at 533 Banner Avenue;
- Axton-Cross Company, located 0.5 miles east of the site at 3001 Holts Chapel Road; and
- Town Homes at Willow Oaks, located 0.35 miles southwest of the site at 711 Willow Hope Street.

4.2 PHYSICAL SETTING SOURCE(S)

Table 4-2 presents information about the physical setting of the site. This information was obtained from published maps.

**TABLE 4-2
PHYSICAL SETTING**

DATA	SOURCE	GENERAL INFORMATION
USGS TOPOGRAPHIC QUADRANGLE	1997 USGS Topographic Map, Greensboro, North Carolina Quadrangle, 7.5 Minute Series	There were no structures depicted on-site. A stream was depicted along the southern property boundary and in the western portion of the parcels along South English Street. Land use in the vicinity of the site was depicted as rural residential with a cemetery north of the site.
SOIL TYPE	US Department of Agriculture - Natural Resources Conservation Service, Guilford County Soil Survey	The soil type identified for the majority of the site included Enon-Urban Land Complex with Urban Land in the northeast corner of the site.

Information about the regional geology is presented on Table 4-3. This information was obtained from published data and maps, interviews with public agencies, and/or from previous investigations conducted by Kleinfelder in the vicinity of the site.

**TABLE 4-3
REGIONAL GEOLOGY AND HYDROGEOLOGY**

PHYSICAL PARAMETER	INFORMATION / COMMENTS
REGIONAL GEOLOGY (Source: Geologic Map of North Carolina, 1985)	The site is located in the Carolina Slate Belt of the Piedmont Physiographic Province of North Carolina. The regional bedrock generally consists of metamorphosed granitic rock.
DEPTH TO REGIONAL GROUNDWATER (Source: None)	The depth to groundwater was not determined on the site.
DIRECTION OF ANTICIPATED FLOW (Source: USGS Topographic Map)	The direction of groundwater flow is estimated to be to the south and east based on topography.

**TABLE 4-3
REGIONAL GEOLOGY AND HYDROGEOLOGY**

PHYSICAL PARAMETER	INFORMATION / COMMENTS
REGIONAL GROUNDWATER QUALITY PROBLEMS (Source: EDR Radius Map Report with Geocheck)	Regional groundwater quality problems and regional impairments to water quality were not revealed during Kleinfelder's assessment.
WATER SUPPLY (Source: EDR Radius Map Report with Geocheck)	No public water supply wells were shown within 0.25 miles of the site. No water supply wells were shown within 0.25 miles of the site. Several water supply wells were shown outside of 0.25 miles of the site. Public water is available to the site and is supplied by the City of Greensboro.
FLOOD ZONE DESIGNATION (Source: EDR)	According to the EDR regulatory agency database search report, the subject site is located within a flood zone.

4.3 USER PROVIDED INFORMATION

According to Mr. Gregory Jackson with the City of Greensboro Parks and Recreation Department (Appendix B), the purpose for performing this Phase I ESA is to understand potential environmental conditions that could impact future plans for redevelopment and maintenance of the site. Information regarding current owner/occupant is listed in Table 4-4.

**TABLE 4-4
OWNER/OCCUPANT INFORMATION**

ENTITY	NAME
OWNER	City of Greensboro
SITE CONTACT	Ms. Barbara Harris and Ms. Elizabeth Link
OCCUPANT	Bingham Park

Interviews of key individuals ("Key Site Managers") are provided in Section 7. The following section presents information provided by the Client.

4.3.1. Title Records

A Preliminary Title Report or Chain-of-Title Report was not provided to Kleinfelder for review prior to production of this report. These documents may provide information about land including ownership and other interests in the land, easements, and liens. Not all liens, defects, and encumbrances affecting title to the land may be included on the Preliminary Title Report.

4.3.2 Environmental Liens and Usage Limitations

According to Mr. Gregory Jackson with the City of Greensboro Parks and Recreation Department, there are no environmental liens or activity and use limitations recorded against the site.

A review of the property deed was performed for Kleinfelder by Environmental Data Resources (EDR) to search for activity and use limitations (AULs) attached to the site. No AULs were identified by EDR that were attached to the site. A copy of the Environmental Lien Search Report is included in Appendix C.

4.3.3 Value Reduction

As part of the ASTM E 1527-05 process, information must be gathered regarding the prospective purchase price of the property relative to the fair market value of the subject site. If there appears to be a value reduction, that reduction must be identified with respect to whether the difference could be attributed to environmental degradation of the property. Based on a questionnaire provided to Mr. Jackson, the site is not being sold so the purchase price being paid for the site being reasonably reflected in the fair market value of the site does not apply to this assessment (Appendix D).

4.3.4 Other Information/Documents Provided

If available, no additional information was provided to Kleinfelder at the time of this writing.

5.0 HISTORY OF THE SITE

The history of the site was researched to identify obvious uses. Historical land use was researched to the first developed use, or back to 1940, whichever is earlier or readily available. Tables 5-1 to 5-3 summarize the availability of information reviewed during this assessment.

5.1 AERIAL PHOTOGRAPHS

A review of historical aerial photography may indicate past activities at a site that may not be documented by other means, or observed during a site visit. The effectiveness of this technique depends on the scale and quality of the photographs and the available coverage. Aerial photographs were obtained from the Guilford County Mapping Department, Guilford County website, and EDR. Aerial photographs dating back to 1937 were available during the time frame that this report was being prepared. A tabulation of the aerial photographs reviewed is presented in Table 5-1. A copy of the 2007 aerial photograph is included as Figure 4. Copies of the reviewed aerial photographs are included in Appendix E.

TABLE 5-1
HISTORICAL AERIAL PHOTOGRAPHS REVIEWED

YEAR	SCALE	OBSERVATIONS
1937	No Scale	One or more small structures appear in the northern portion of the site. Disturbed land areas are evident in the central portion of the site. Areas south of the stream in the southern portion of the site appear to be wooded. Maplewood Cemetery is labeled and shown north of the site. Farmland and trees appear to be located east, south, and west of the site. Bingham Street is not shown west and adjacent to the site.
1955	No Scale	The site appears to be covered with more vegetation in the 1955 aerial photograph. The streams show up more clearly in the southern and northeastern portions of the site. Bingham Street appears to have been extended south and is shown west and adjacent to the site. Additional development of the surrounding properties is evident.

**TABLE 5-1
HISTORICAL AERIAL PHOTOGRAPHS REVIEWED**

YEAR	SCALE	OBSERVATIONS
1959	No Scale	The majority of the site appears to have been graded and cleared. The northeastern portion of the site appears to have remained covered with trees along the northern side of the stream. No structures are apparent at the site. Additional development is evident in the vicinity of the site.
1965	No Scale	The site appears to have been overgrown with trees and bushes along the western, southern, and northeastern portions of the site. Scattered trees are shown in the central portion of the site. Additional structures are shown to the west, south, and east of the site.
1977	1" = 750'	Two structures appear to be located on the site which is consistent with the picnic shelter and basketball court on-site today. A stream is shown in the southern and northeastern portions of the site. The cemetery is shown north of the site with apartment buildings to the north, east, south, and west sides of the site.
1988	1" = 750'	The site appears to have remained unchanged in the 1988 aerial photograph. Development surrounding the property also appears to have remained unchanged. Resolution of the aerial photograph is poor.
1993	1" = 833'	The site appears to have remained unchanged in the 1993 aerial photograph. Development surrounding the property also appears to have remained unchanged.
2002	1" = 249'	The site is shown with the current picnic shelter, basketball court, baseball field, walking trail, and stream in the southern and northeastern portions of the site. The surrounding properties appear to be a cemetery to the north, apartments to the east, south, and west of the site, a church southwest of the site, and residential to the west and southeast of the site.
2007	No Scale	The site remained unchanged in the 2007 aerial photograph. Structures shown to the southwest of the site previously are not shown in the 2007 aerial photograph. The other surrounding properties appear to have remained unchanged.

Note: Aerial photographs only provide information on indications of land use and no conclusions regarding the release of hazardous substances or petroleum products can be drawn from the

review of photographs alone. The site boundaries were approximated during the early years, because physical features were not always readily apparent.

5.2 SANBORN FIRE INSURANCE MAPS

Sanborn Fire Insurance Maps provide historical land use information for some metropolitan areas and small established towns. Kleinfelder requested a search of Sanborn Fire Insurance Maps by EDR. Sanborn Fire Insurance Maps were not available for the subject site and the majority of the surrounding properties from EDR. Limited Sanborn Fire Insurance Maps were available for the site from the Guilford County Public Library (see Appendix F).

**TABLE 5-2
SANBORN FIRE INSURANCE MAPS REVIEWED**

YEAR	SCALE	OBSERVATIONS
1925	No Scale	"Incinerator" is shown on the site in the 1925 Sanborn Map. No structures are shown on the adjacent properties.
1950	No Scale	The map shows the same information as the 1925 map.

5.3 CITY DIRECTORIES

City Directories provide information regarding property occupants by address. These directories were reviewed at the City of Greensboro's Library dating back to 1931 (summarized in a report contained in Appendix G). The review was conducted in approximately 5-year increments. The results of the review are summarized below.

5.3.1 CITY DIRECTORY ABSTRACT SUMMARY FOR SUBJECT SITE

The site consisted of six parcels with addresses of 400 (Open) Bingham Street and 322, 324, 326, 328, and 600-698 South English Street. The site addresses were not listed in the city directories reviewed as part of this assessment. A listing for "Greensboro City Incinerator" appears on the 1931 city directory for Bingham Street.

5.3.2 CITY DIRECTORY ABSTRACT SUMMARY FOR ADJACENT PROPERTIES

Properties located north and adjacent to the site had an address of 301-325 Bingham Street (cemetery) and 318 South English Street. The address for the cemetery was not listed in the city directories reviewed. Addresses for South English Street are shown dating back to 1950 for residential properties/apartment complexes.

Properties located east and adjacent to the site had addresses including 313, 405, 701-705 South English Street. Addresses for South English Street are shown dating back to 1950 for residential properties/apartment complexes.

Properties located south and adjacent to the site had addresses including 1901, 1911, 2001, 2003, 2101, and 2103 Spencer Street and 700 South English Street. Addresses for Spencer Street were identified back to 1964-65 for residential properties/apartment complexes. Addresses for South English Street were identified back to 1950 for residential properties/apartment complexes.

Properties located west and adjacent to the site had addresses including 324, 326, 328, 400, 400 (Rear), 402, 404, 406, 408, 410 Bingham Street. Addresses for Bingham Street were identified back to 1958 for residential properties/apartment complexes.

5.4 HISTORICAL TOPOGRAPHIC MAP REVIEW

Kleinfelder obtained information regarding historical topographic maps of the site vicinity from 1951. The topographic maps reviewed for this assessment are listed below in Table 5-3. The 1997 USGS topographic map is included as Figure 5. Historical topographic maps are included in Appendix H.

**TABLE 5-3
HISTORIC USGS TOPOGRAPHIC MAP REVIEWED**

YEAR	SCALE	OBSERVATIONS
1951	1" = 2,000'	The 1951 USGS topographic map, Greensboro Quadrangle did not show any structures on the site. A stream was

TABLE 5-3
HISTORIC USGS TOPOGRAPHIC MAP REVIEWED

YEAR	SCALE	OBSERVATIONS
		shown along the southern portion of the site. A cemetery was shown to the north of the site. No structures were shown to the east, south, or west of the site. A structure was shown southeast of the site.
1968	1" = 2,000'	The site and adjacent properties appear to have remained unchanged in 1968.
1994	1" = 2,000'	The site and adjacent properties appear to have remained unchanged in 1994.
1997	1" = 2,000'	The site and adjacent properties appear to have remained unchanged with the exception of the southeastern structure previously shown was not shown on this map in 1997.

5.5 CONTROLLED SUBSTANCES

Because the Phase I ESA is being performed as part of an EPA Brownfields Assessment and Characterization Grant awarded under CERCLA 42 U.S.C. Section 9604(k)(2)(B), the ESA must include information about controlled substances as defined in the Controlled Substances Act (21 U.S.C. Section 802). A "controlled substance" means a drug or other substance, or immediate precursor, included in schedule I, II, III, IV, or V of part B of 21 U.S.C. Section 802, Subchapter I. The term does not include distilled spirits, wine, malt beverages, or tobacco, as those terms are defined or used in Subtitle E of the Internal Revenue Code of 1986.

Kleinfelder contacted Sergeant Ellis Allen with the City of Greensboro Police Department regarding controlled substances in the vicinity of the subject site. Sgt. Allen was not aware of any controlled substances within 0.5 miles of Bingham Park ("subject site"). No controlled substances or paraphernalia were observed during our site reconnaissance.

5.6 PREVIOUS ASSESSMENTS

If available, reports summarizing previous environmental assessments of the site were not obtained by Kleinfelder.

6.0 SITE RECONNAISSANCE

Kleinfelder's assessment activities included a site reconnaissance. This section summarizes the findings from the site reconnaissance.

6.1 METHODOLOGY AND LIMITING CONDITIONS

Ms. Tina M. Stewart of Kleinfelder performed a site reconnaissance on April 6, 2010. The site reconnaissance included a visual inspection of the site to assist in identifying the presence or likely presence of hazardous substances or petroleum hydrocarbons under conditions that indicate an existing release, a past release, or threat of release into structures, soil, groundwater, or surface water at the site (RECs). Observations of readily apparent environmental conditions are summarized in Table 6-1. The approximate site boundaries are shown on Figure 2, "Site Map".

6.2 GENERAL SITE SETTING

The subject site is approximately 9 acres in size and consists of six tax parcels referred to as "Bingham Park". The site is located between Bingham Street and South English Street and approximately 200 feet north of Spencer Street in Greensboro, North Carolina.

6.3 SITE OBSERVATIONS

Site observations are further described in Table 6-1.

**TABLE 6-1
SITE OBSERVATIONS**

GENERAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Interior and exterior observations or environmental conditions that may involve the use, storage, disposal or generation of hazardous substances or petroleum			
Current use	Public park.	X	
Current use likely to indicate RECs	None observed.		X
Past use	City incinerator.		X
Past use likely to indicate RECs	Operation of incinerator and apparent waste disposal.		X
Structures	Picnic shelter.	X	
Roads	None observed.		X
Topography of site and surrounding area	Sloped to the south and east.	X	
Aboveground storage tank (AST)	None observed.		X
Air emissions	None observed.		X
Asbestos and lead	Outside of scope.		
Below grade vaults	None observed.		X
Burned or buried debris	Pieces of debris were located on the embankment of the stream in the southern portion of the site. The debris included primarily broken glass and bottles. Also observed were used tires, plastic bottles, a lawnmower handle, ceramic tile, and bricks.	X	
Chemical storage	None observed.		X
Chemical mixing areas	None observed.		X
Discolored soil or water	None observed.		X
Ditches, streams	Two streams were observed along the southern and northeastern portions of the site.	X	
Drains and piping (e.g. floor drains, floor trenches, bay drains, sand traps, grease traps)	None observed.		X

**TABLE 6-1
SITE OBSERVATIONS**

GÉNÉRAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Interior and exterior observations or environmental conditions that may involve the use, storage, disposal or generation of hazardous substances or petroleum			
Drums	None observed.		X
Emergency Generator	None observed.		X
Electrical or hydraulic equipment (polychlorinated biphenyls [PCBs])	None observed.		X
Farm waste (e.g. feedlot spoils or manure stockpile)	None observed.		X
Fill dirt from an unknown source.	Fill is apparent on the embankment adjacent to the stream in the southern portion of the site.	X	
Fill dirt from a known source	None observed.		X
Grease Traps	None observed.		X
Hazardous chemical and petroleum products in connection with <i>known</i> use.	None observed.		X
Hazardous chemical and petroleum products in connection with <i>unknown</i> use.	None observed.		X
Non-hazardous containers with contents	None observed.		X
Hazardous waste storage	None observed.		X
Heating system and fuel source	None observed.		X
Industrial waste treatment equipment	None observed.		X
Loading and unloading areas	None observed.		X
Odors	None observed.		X
Pits, ponds, or lagoons	Two streams noted above were located on-site.	X	
Pools of liquid	None observed.		X
Process waste water	None observed.		X
Sanitary sewer system	City of Greensboro		X
Septic system (e.g. tank	None observed or		X

**TABLE 6-1
SITE OBSERVATIONS**

GENERAL OBSERVATIONS	REMARKS	OBSERVED	NOT OBSERVED
Interior and exterior observations or environmental conditions that may involve the use, storage, disposal or generation of hazardous substances or petroleum and leach fields)			
	reported.		
Soil piles	None observed.		X
Solid waste/evidence of unauthorized dumping	Debris was located on the embankment of the stream in the southern portion of the site. The depth of the debris is unknown at this time.	X	
Stained pavement, soil or concrete	None observed.		X
Stains or corrosion (interior, non-water)	None observed.		X
Storm drains/catch basins	None observed.		X
Stressed vegetation	None observed.		X
Sumps and clarifiers	None observed.		X
Surface water	Two streams were observed along the southern boundary and northeastern portions of the site.	X	
Underground storage tank(s) (including heating oil tanks)	None observed.		X
Unidentified substance containers	None observed.		X
Waste water discharge	To municipal sewer.		X
Water supplies (potable and process)	City of Greensboro		X
Wells (irrigation, monitoring, or domestic)	None observed.		X
Wells (dry)	None observed.		X
Wells (oil and gas)	None observed.		X

6.4 RESULTS OF SITE RECONNAISSANCE

At the time of our site reconnaissance, the majority of the site consisted of an open grass-covered park with a picnic shelter, baseball field, basketball court, and a walking

trail. The picnic shelter had restrooms and a storage room that remain locked and not accessible to the public. A stream was located along the southern portion of the developed park. Broken pieces of construction material including ceramic tile and brick and garbage (glass bottles, plastic containers, broken glass, used tire, lawnmower handle) were observed along the stream and up to 20 feet away from the stream on the northern embankment. Household trash was also observed in and along the stream and on the embankment. A smaller parcel east of the developed park also was developed with a portion of the walking trail. The four northeastern parcels were undeveloped and had a stream along the western side. Household garbage was scattered across the four parcels including at least three used tires. Site photographs are included in Appendix I.

6.5 ENDANGERED SPECIES SURVEY

The purpose of the endangered species survey was to identify potential habitat and individual endangered species within the project area. A total of 71 endangered or threatened species have been identified by the U.S. Fish and Wildlife Service within North Carolina. However, based on information provided by the North Carolina Natural Heritage Program, only four species of concern and significantly rare species have been identified to potentially exist within the area of the Greensboro USGS Quadrangle. The following table lists the species identified by the Natural Heritage Program. Both lists are included in Appendix J.

**Protected Species Identified by the North Carolina Natural Heritage Program
within the Greensboro USGS Quadrangle**

COMMON NAME	SCIENTIFIC NAME	STATE STATUS	MAJOR GROUP
Greensboro Burrowing Crayfish	<i>Cambarus catagius</i>	Species of Concern	Invertebrate
Blue Ridge Carrion-flower	<i>Smilax lasioneura</i>	Significantly Rare	Vascular Plant
Appalachian Golden-banner	<i>Thermopsis mollis</i>	Significantly Rare	Vascular Plant
Loggerhead Shrike	<i>Lanius ludovicianus</i>	Species of Concern	Vertebrate

Prior to the field reconnaissance, detailed descriptions of each protected species suspected within the project area were obtained from various sources and reviewed. Kleinfelder submitted data about the property location to the Natural Heritage Program. Subsequently, the property was traversed by foot to observe the existing conditions and types of habitat within the property boundaries.

The Natural Heritage Program (NHP) has no record of rare species, significant natural communities, or priority natural areas at or within one mile of the property. A letter from Mr. Harry E. LeGrand, Jr., a zoologist with the NHP, confirming this information is included in Appendix J.

Research was conducted into the preferred habitat and documented populations of individual species. The urban setting and maintenance of the grass turf at the property eliminate preferred habitat for many of the species. Potential habitat was observed for some of the protected species identified by the Natural Heritage Program within or adjacent to the property. Although suitable habitat may be present at the site, neither preferred habitat nor any individuals were observed at the property.

Based on information gathered from our field reconnaissance and information available from various State agencies, development of the property is not anticipated to have significant effect on endangered, threatened, species of concern, or significantly rare species. It appears that the most significant impact would be loss of potentially suitable habitat. Additional investigation does not appear to be warranted at this time.

A list of references for the information cited in this study is included in Appendix J.

6.6 HISTORIC/CULTURAL RESOURCES SURVEY

The purpose of our historic/cultural resources survey was to identify existing structures or other facilities of historical or cultural value within the property boundaries. Kleinfelder contacted the Department of Cultural Resources, performed a visual inspection of the property, reviewed aerial photographs and USGS maps, and reviewed available online information from the North Carolina Office of Archives and History and Guilford County.

According to the National Register of Historic Places, the nearest historic resources registered with the State are the James B. Dudley High School and Gymnasium located approximately 3,000 feet to the southwest, the Bennett College Historic District located approximately one mile to the west, and the Agricultural & Technical College of North Carolina Historic District located approximately one mile to the northwest.

Fifty-three historic sites (including those listed above) are registered in the vicinity of Greensboro, North Carolina. The North Carolina State Historic Preservation Office statewide inventory contains information on 98 prehistoric and historic sites in Guilford County, North Carolina. A list of the registered historic resources in Guilford County, North Carolina is included in Appendix J. Information available on their website was reviewed and no resources were found at or adjacent to the site. Kleinfelder forwarded a request to the Department of Cultural Resources and to the Historic Preservation Office to review the location of the property for any available information on historic or cultural resources. The Historic Preservation Office responded that they are not aware of any historic resources which would be affected by the project.

Based on a review of the site for historic resources, it does not appear that any identified resources will be impacted by the project.

7.0 INTERVIEWS

The names of "Key Site Managers" were provided to Kleinfelder by Ms. Elizabeth Link with the City of Greensboro Brownfields Program. Key Site Managers were contacted to obtain current and historical environmental information concerning the subject site. Kleinfelder contacted and interviewed Ms. Brooks Malone with the City of Greensboro Parks and Recreation Department.

7.1 INTERVIEW WITH OWNER

Kleinfelder contacted Ms. Malone regarding the current and historical use of the subject site. The site was reportedly developed as Bingham Park in 1972 and has been used as a public park since then. Four of the six tax parcels located northeast of the developed park have been undeveloped but remain as what is referred to as Bingham Park. Ms. Malone was not aware of the previous use of the site prior to the park being developed in 1972 and was not aware of any others that would be aware of the site's history prior to the park.

7.2 INTERVIEWS WITH LOCAL GOVERNMENT OFFICIALS

Kleinfelder contacted Ms. Sharon Cihak with the Guilford County Environmental Health Department regarding any spills, leaking underground storage tanks, or emergency responses within 0.25 miles of the site. Ms. Cihak was not aware of any spills or responses that are not summarized in Section 4.0. Ms. Cihak was not aware of an incinerator that was shown on the 1925 and 1950 Sanborn Maps on the site.

8.0 EVALUATION

Kleinfelder performed this ESA of the subject site in conformance with the scope and limitations of ASTM Standard Practice E 1527-05. The following sections describe Kleinfelder's findings and provide general background information about the site. Findings include RECs, historical RECs, and notation of *de minimus* quantities, as applicable to the site. Business environmental risk issues are discussed in Section 8.5, Deviations. In summary, Kleinfelder's assessment revealed the following information about the site.

8.1 BACKGROUND

An incinerator was shown at the site in the 1925 and 1950 Sanborn Fire Insurance Map. The 1931 City Directory has a listing for "Greensboro City Incinerator" on Bingham Street that does not have a street address. Primitive roads and potentially several small buildings were located on-site in 1937. Bingham Park was developed in 1972. The four northeastern parcels have been undeveloped dating back to 1937 and were not developed when Bingham Park was established.

8.2 FINDINGS AND OPINIONS

Kleinfelder has found the following known or suspect recognized environmental conditions:

- Household waste was located on the northern embankment of the southern stream and within the stream. It appears that the northern embankment of the stream contains fill from an unknown source. The fill extends from the stream to the top of the embankment along the length of the stream.
- A city incinerator was reportedly located on the site in 1925 and 1950. The use of the incinerator is unknown along with how long the incinerator was operated. Kleinfelder considers the former existence of the incinerator and the lack of available information about the waste stream processed at the site an environmental concern.

- Environmental incidents are located on a number of properties identified within 0.5 miles of the site and described on several databases in Section 4.0. Although several off-site environmental incidents were identified within 0.5 miles of the site on databases in Section 4.0, these incidents are either closed, down gradient, or a sufficient distance from the site to not be an environmental concern at this time.

8.3 CONCLUSIONS

Kleinfelder performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E 1527-05 of the six tax parcels referred to as Bingham Park and located between Bingham Street and South English Street in Greensboro, North Carolina. Any exceptions to, or deletions from, this practice are described in Section 8.5 of this report. This assessment has revealed no evidence of recognized environmental conditions (RECs) in connection with the property except for the following:

- Historic use of the property as a waste processing and disposal facility with an unknown waste stream.

8.4 DATA GAPS

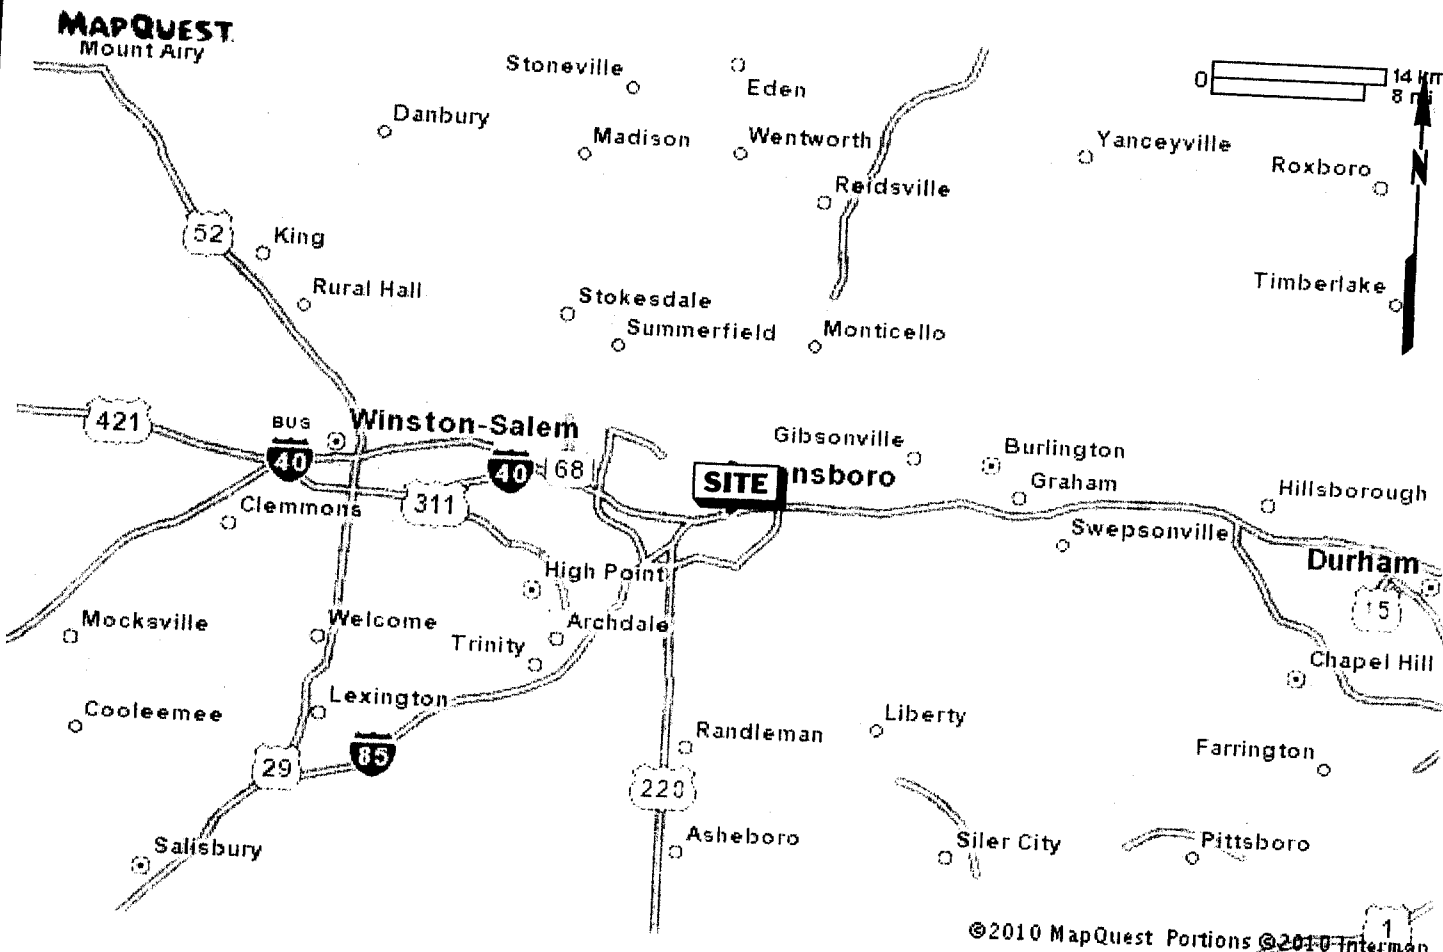

No interviews were conducted with owners of the site prior to 1972 when the City of Greensboro acquired the site. Sanborn map coverage was limited to the dates of 1925 and 1950. The lack of available information about the source(s) and types of waste historically processed and/or disposed of at the site is considered a data gap.

8.5 DEVIATIONS AND ADDITIONAL SERVICES

Kleinfelder performed additional services in addition to the standard ASTM scope including investigating controlled substances, endangered species, and historically cultural resources.

An evaluation of business environmental risks associated with the parcel was not included in Kleinfelder's scope of services. The ESA does not incorporate non-scope considerations, such as asbestos-containing materials testing, radon, lead-based paint testing, lead in drinking water testing, wetlands, regulatory compliance, industrial hygiene, health and safety, ecological resources, indoor air quality, and high voltage power lines.

EXECUTIVE SUMMARY

A search of the environmental records was conducted by Environmental Data Resources, Inc. (EDR). KLEINFELDER INC. used the EDR FieldCheck System to review and/or revise the results of this search, based on independent data verification by KLEINFELDER INC.. The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

TARGET PROPERTY SEARCH RESULTS

The target property was not listed in any of the databases searched by EDR.

DATABASES WITH NO MAPPED SITES

No sites were identified in following databases.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL..... National Priority List

EXECUTIVE SUMMARY

Proposed NPL..... Proposed National Priority List Sites
NPL LIENS..... Federal Superfund Liens

Federal Delisted NPL site list

Delisted NPL..... National Priority List Deletions

Federal CERCLIS list

CERCLIS..... Comprehensive Environmental Response, Compensation, and Liability Information System
FEDERAL FACILITY..... Federal Facility Site Information listing

Federal CERCLIS NFRAP site List

CERC-NFRAP..... CERCLIS No Further Remedial Action Planned

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF..... RCRA - Treatment, Storage and Disposal

Federal RCRA generators list

RCRA-LQG..... RCRA - Large Quantity Generators
RCRA-SQG..... RCRA - Small Quantity Generators
RCRA-CESQG..... RCRA - Conditionally Exempt Small Quantity Generator

Federal institutional controls / engineering controls registries

US ENG CONTROLS..... Engineering Controls Sites List
US INST CONTROL..... Sites with Institutional Controls

Federal ERNS list

ERNS..... Emergency Response Notification System

State and tribal landfill and/or solid waste disposal site lists

SWF/LF..... List of Solid Waste Facilities
OLI..... Old Landfill Inventory

State and tribal leaking storage tank lists

INDIAN LUST..... Leaking Underground Storage Tanks on Indian Land

State and tribal registered storage tank lists

UST..... Petroleum Underground Storage Tank Database
AST..... AST Database
INDIAN UST..... Underground Storage Tanks on Indian Land
FEMA UST..... Underground Storage Tank Listing

State and tribal institutional control / engineering control registries

INST CONTROL..... No Further Action Sites With Land Use Restrictions Monitoring

State and tribal voluntary cleanup sites

VCP..... Responsible Party Voluntary Action Sites

EXECUTIVE SUMMARY

INDIAN VCP..... Voluntary Cleanup Priority Listing

State and tribal Brownfields sites

BROWNFIELDS..... Brownfields Projects Inventory

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS..... A Listing of Brownfields Sites

Local Lists of Landfill / Solid Waste Disposal Sites

ODI..... Open Dump Inventory
DEBRIS REGION 9..... Torres Martinez Reservation Illegal Dump Site Locations
HIST LF..... Solid Waste Facility Listing
INDIAN ODI..... Report on the Status of Open Dumps on Indian Lands

Local Lists of Hazardous waste / Contaminated Sites

US CDL..... Clandestine Drug Labs
US HIST CDL..... National Clandestine Laboratory Register

Local Land Records

LIENS 2..... CERCLA Lien Information
LUCIS..... Land Use Control Information System

Records of Emergency Release Reports

HMIRS..... Hazardous Materials Information Reporting System

Other Ascertainable Records

RCRA-NonGen..... RCRA - Non Generators
DOT OPS..... Incident and Accident Data
DOD..... Department of Defense Sites
FUDS..... Formerly Used Defense Sites
CONSENT..... Superfund (CERCLA) Consent Decrees
ROD..... Records Of Decision
UMTRA..... Uranium Mill Tailings Sites
MINES..... Mines Master Index File
TRIS..... Toxic Chemical Release Inventory System
TSCA..... Toxic Substances Control Act
FTTS..... FIFRA/ TSCA Tracking System - FIFRA (Federal Insecticide, Fungicide, & Rodenticide Act)/TSCA (Toxic Substances Control Act)
HIST FTTS..... FIFRA/TSCA Tracking System Administrative Case Listing
SSTS..... Section 7 Tracking Systems
ICIS..... Integrated Compliance Information System
PADS..... PCB Activity Database System
MLTS..... Material Licensing Tracking System
RADINFO..... Radiation Information Database
FINDS..... Facility Index System/Facility Registry System

EXECUTIVE SUMMARY

RAATS.....	RCRA Administrative Action Tracking System
UIC.....	Underground Injection Wells Listing
DRYCLEANERS.....	Drycleaning Sites
NPDES.....	NPDES Facility Location Listing
INDIAN RESERV.....	Indian Reservations
SCRD DRYCLEANERS.....	State Coalition for Remediation of Drycleaners Listing
COAL ASH.....	Coal Ash Disposal Sites
COAL ASH DOE.....	Steam-Electric Plant Operation Data
COAL ASH EPA.....	Coal Combustion Residues Surface Impoundments List
PCB TRANSFORMER.....	PCB Transformer Registration Database

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants..... EDR Proprietary Manufactured Gas Plants

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property. Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA CORRACTS facilities list

CORRACTS: CORRACTS is a list of handlers with RCRA Corrective Action Activity. This report shows which nationally-defined corrective action core events have occurred for every handler that has had corrective action activity.

An online review and analysis by KLEINFELDER INC. of the CORRACTS list, as provided by EDR, and dated 12/11/2009 has revealed that there is 1 CORRACTS site within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>
AXTON-CROSS CO	3001 HOLTS CHAPEL RD	NNE 1/2 - 1 (0.501 mi.)	23	61

EXECUTIVE SUMMARY

State- and tribal - equivalent NPL

NC HSDS: The Hazardous Substance Disposal Sites list contains locations of uncontrolled and unregulated hazardous waste sites. The file contains sites on the national priority list as well as the state priority list. The data source is the North Carolina Center for Geographic Information and Analysis.

An online review and analysis by KLEINFELDER INC. of the NC HSDS list, as provided by EDR, and dated 04/06/2006 has revealed that there are 3 NC HSDS sites within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

FANCOURT W F CO		ENE 1/4 - 1/2 (0.332 mi.)	0	7

State- and tribal - equivalent CERCLIS

SHWS: The State Hazardous Waste Sites records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. The data come from the Department of Environment & Natural Resources' Inactive Hazardous Sites Program.

An online review and analysis by KLEINFELDER INC. of the SHWS list, as provided by EDR, and dated 03/30/2010 has revealed that there are 4 SHWS sites within approximately 1 mile of the target property.

<u>Equal/Higher Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

FANCOURT W F CO	408 BANNER AVE	NE 1/2 - 1 (0.530 mi.)	25	78

State and tribal leaking storage tank lists

LUST: The Leaking Underground Storage Tank Incidents Management Database contains an inventory of reported leaking underground storage tank incidents. The data come from the Department of Environment, & Natural Resources' Incidents by Address.

An online review and analysis by KLEINFELDER INC. of the LUST list, as provided by EDR, and dated 02/05/2010 has revealed that there are 18 LUST sites within approximately 0.5 miles of the target property.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

		NO SITES FOUND			

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 03/31/2010	Source: EPA
Date Data Arrived at EDR: 04/02/2010	Telephone: N/A

Number of Days to Update: 10	Next Scheduled EDR Contact: 07/26/2010
	Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal Delisted NPL site list

DELISTED NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 01/29/2010

Data Release Frequency: Varies

Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 01/13/2010
Date Data Arrived at EDR: 01/15/2010

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Data Release Frequency: Biennially

State- and tribal - equivalent CERCLIS

SHWS: Inactive Hazardous Sites Inventory

State Hazardous Waste Sites. State hazardous waste site records are the states' equivalent to CERCLIS. These sites may or may not already be listed on the federal CERCLIS list. Priority sites planned for cleanup using state funds (state equivalent of Superfund) are identified along with sites where cleanup will be paid for by potentially responsible parties. Available information varies by state.

Date of Government Version: 03/30/2010

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Included in the listing are brownfields properties addresses by Cooperative Agreement Recipients and brownfields properties addressed by Targeted Brownfields Assessments. Targeted Brownfields Assessments-EPA's Targeted Brownfields Assessments (TBA) program is designed to help states, tribes, and municipalities--especially those without EPA Brownfields Assessment Demonstration Pilots--minimize the uncertainties of contamination often associated with brownfields. Under the TBA program, EPA provides funding and/or technical assistance for environmental assessments at brownfields sites throughout the country. Targeted Brownfields Assessments supplement and work with other efforts under EPA's Brownfields Initiative to promote cleanup and redevelopment of brownfields. Cooperative Agreement Recipients-States, political subdivisions, territories, and Indian tribes become Brownfields Cleanup Revolving Loan Fund (BCRLF) cooperative agreement recipients when they enter into BCRLF cooperative agreements with the U.S. EPA. EPA selects BCRLF cooperative agreement recipients based on a proposal and application process. BCRLF cooperative agreement recipients must use EPA funds provided through BCRLF cooperative agreement for specified brownfields-related cleanup activities.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

Data Release Frequency: Quarterly

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006
Date Data Arrived at EDR: 03/01/2007
Date Made Active in Reports: 04/10/2007
Number of Days to Update: 40

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

EDR PROPRIETARY RECORDS

EDR Proprietary Records

Manufactured Gas Plants: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Date of Government Version: 12/31/2007

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

ROCK STRATIGRAPHIC UNIT

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Enon

Soil Surface Texture: fine sandy loam

Hydrologic Group: Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2009 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetlands Inventory

Source: Department of Environment & Natural Resources

Telephone: 919-733-2090

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the data of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

North Carolina Public Water Supply Wells

Source: Department of Environmental Health

Telephone: 919-715-3243

OTHER STATE DATABASE INFORMATION

NC Natural Areas: Significant Natural Heritage Areas

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

A polygon coverage identifying sites (terrestrial or aquatic) that have particular biodiversity significance.

A site's significance may be due to the presence of rare species, rare or high quality natural communities, or other important ecological features.

NC Game Lands: Wildlife Resources Commission Game Lands

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

All publicly owned game lands managed by the North Carolina Wildlife Resources Commission and as listed in Hunting and Fishing Maps.

NC Natural Heritage Sites: Natural Heritage Element Occurrence Sites

Source: Center for Geographic Information and Analysis

Telephone: 919-733-2090

A point coverage identifying locations of rare and endangered species, occurrences of exemplary or unique natural ecosystems (terrestrial or aquatic), and special animal habitats (e.g., colonial waterbird nesting sites).

RADON

State Database: NC Radon

Source: Department of Environment & Natural Resources

Telephone: 919-733-4984

Radon Statistical and Non Statistical Data

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Environmental LienSearch™ Report

The EDR Environmental LienSearch Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

DEED EXHIBIT A

This Deedby James W. Young

Made this the

14

day of

September1944

and his wife

Montrose B. Young

of Guilford County and State of North Carolina, parties of the first part,
to City of Greensboro, a Municipal Corporation of Guilford County and
State of North Carolina, party of the second part, Witnesseth, That the said parties of the first part, in consideration of
(\$1.00) One Dollar and other valuable considerations to
them paid by the said party of the second part, the receipt of which is hereby acknowledged, ~~but~~ have bargained and sold
and by these presents do bargain, sell and convey unto the said party of the second part and its successors
or parcel of land in the County of Guilford and State of North Carolina, in Gilmer Township, adjoining the
lands of _____ and others, and bounded as follows:

TRACT 1: Being all of Lots 51, 52, 53 and 54 Block "B" of the map of
John A. Young property, a plat of which is duly recorded in the office of
the Register of Deeds of Guilford County, North Carolina in Plat Book 4,
at Page 57.

TRACT 2: BEGINNING at Charles Goode's northwest corner (See Book 407
at Page 63) thence south 88 deg. 20 min. west 25 feet to a stake; thence
south 3 deg. 04 min. west 50 ft. to a stake; thence north 88 deg. 20 min.
east 25 feet to Charles Goode's southwest corner; thence with his west
line north 3 deg. 04 min. east 50 feet to the point of beginning.

The above land was conveyed to grantor by R. D. Douglas, Trustee See Book No. 792, Page 345, etc.

To have and to hold the aforesaid tract or parcel of land and all privileges and appurtenances thereunto belonging to the
said party of the second part and its successors and assigns forever.

And the said parties of the first part do covenant that they are seized of said premises in fee and
have the right to convey the same in fee simple; that the same are free from incumbrances; and that they
will warrant and defend the said title to the same against the claims of all persons whatsoever.

In Testimony Whereof the said parties of the first part do hereunto set their hand and seal
on the day and year first above written.

WITNESS:

STATE OF NORTH CAROLINA—GUILFORD COUNTY

I, Lawrence J. Hoyle, a notary public of said County, do hereby certify
that James W. Young and his wife Montrose B. Young
personally appeared before me this day and acknowledged the execution of the foregoing deed of conveyance, and the
said Montrose B. Young

being by me personally examined, separate and apart from her said husband, touching her voluntary execution of the same, doth
state that she signed the same freely and voluntarily, without fear or compulsion of her said husband or any other person, and that
she doth still voluntarily assent thereto. Let the said deed and this certificate be registered.

Witness my hand and seal this the 14 day of September, 1944
My commission expires 1-27, 1945 Lawrence J. Hoyle, N. P. [SEAL]

STATE OF NORTH CAROLINA—GUILFORD COUNTY

I, _____ of said County, do hereby certify
that _____ grantor, personally appeared before me this day and acknowledged
the execution of the foregoing deed. Let the said deed and this certificate be registered.

Witness my hand and seal this the _____ day of _____, 194____
My commission expires _____, 194____, N. P. [SEAL]

STATE OF NORTH CAROLINA—GUILFORD COUNTY

The foregoing certificate of Lawrence J. Hoyle, N.P.
of said County, is adjudged to be correct. Let the said deed and this certificate be registered.
Witness my hand and seal this the SEP 16 1944 day of September, 1944

Filed for registration on the _____ day of SEP 16 1944, 194____, at 11:30 o'clock A.M.,
and duly recorded in the office of the Register of Deeds in Guilford County, N. C., in Book _____, Page _____, Etc.

DEED EXHIBIT B

414

THIS DEED, Made this the 14 day of February, 1949,
 by J. M. Sutphin and his wife, Jennie Sutphin,
 of _____ County and State of _____,
 parties of the first part, to the City of Greensboro, a Municipal
 Corporation of Guilford County and State of North Carolina, party of
 the second part,

W I T N E S S E T H

59 That the said parties of the first part, in consideration of Two
 Hundred Dollars (\$200.00) to them in hand paid by the said party of
 the second part, the receipt of which is hereby acknowledged, have
 bargained and sold and by these presents do bargain, sell and convey
 unto the said party of the second part and its successors or assigns
 a tract or parcel of land in the County of Guilford and State of North
 Carolina, in Gilmer Township, adjoining the lands of _____
 and others, and bounded as follows:

BEGINNING at a point in the western margin of Cottage Grove
 Avenue, said point being south 01 deg. west, 206.2 feet from
 the southeast intersection of Cottage Grove Avenue and
 Liberty Street; thence south 02 deg. 11 min. west along the
 City of Greensboro line, 261 feet to a granite stone
 (grantors' southwest corner, see book 592, page 502); thence
 with the City of Greensboro line (formerly Brawley line) north
 87 deg. 18 min. west, 149 feet to a stake in the western margin
 of Cottage Grove Avenue; thence with the western margin of Cot-
 tage Grove Avenue, as it curves, 305 feet, more or less, to the
 point of BEGINNING.

Being all the land lying west of Cottage Grove Avenue convey-
 ed to J. M. Sutphin by deeds duly recorded in book 592, page
 502 and book 685, page 88, in the office of the Register of
 Deeds of Guilford County, North Carolina.

Subject to the right-of-way of Duke Power Company (See book
 1071, page 190), if any.

The above land was conveyed to grantors by _____
 See book No. _____, page _____, etc.

TO HAVE AND TO HOLD the aforesaid tract or parcel of land and all
 privileges and appurtenances thereunto belonging to the said party of
 the second part and its successors and assigns forever.

And the said parties of the first part do hereby covenant that
 they are seized of said premises in fee and have the right to convey
 the same in fee simple.

IN TESTIMONY WHEREOF, the said parties of the first part have here -
 unto set their hands and seals on the day and year first above written.

DEED EXHIBIT C

RESOLUTION NO. 13007
APPROXIMATELY PERKINS STREET FROM BINGHAM STREET EASTWARD
ET TO COTTAGE GROVE AVENUE

555-7F6231 #00002.00 00

WHEREAS, the City of Greensboro owns all of the property abutting on both sides of Perkins Street from Bingham Street eastward approximately 1,040 feet to Cottage Grove Avenue and the Mayor and City Clerk on behalf of the City of Greensboro have signed the petition requesting that said portion of street be closed and abandoned as a public street;

WHEREAS, a notice was duly published that a public hearing would be held by the City Council in the Council Chamber in the Municipal Office Building on Monday, June 19, 1972, on the closing of said portion of street; and

WHEREAS, the public hearing has now been held and no objections have been made to the closing thereof;

555-7F6231 #00000.50 FE

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF GREENSBORO:

1. That the City Council hereby finds as a fact that the owner of all the property abutting both sides of the hereinafter mentioned portion of street have requested in writing that said portion of street be closed.

2. That the City Council hereby finds as a fact that the closing of the portion of street is not contrary to the public interest and that no individual or other party owning property in the vicinity of the street or in the subdivision in which the street is located will be deprived of reasonable means of ingress or egress to his or its property.

3. That the following portion of street is hereby permanently closed and abandoned as a public street:

Perkins Street from Bingham Street eastward approximately 1,040 feet to Cottage Grove Avenue.

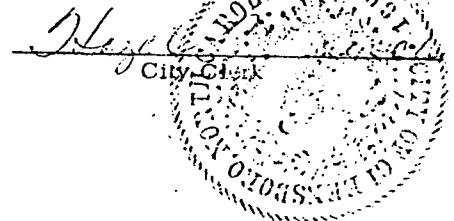

4. That the City of Greensboro hereby reserves utility easements for any water and sewer lines existing in the above mentioned street until such time as said lines are no longer required by the City.

I, Hazel N. Burch, City Clerk of the City of Greensboro, hereby certify the foregoing to be a true and exact copy of a resolution adopted by the City Council of the City of Greensboro on the 3rd day of July, 1972.

Witness my hand and the seal of the City of Greensboro, this the 3rd day of July, 1972.

Sworn and subscribed to before me,
this the 3rd day of July, 1972.

APPENDIX D

ESA USER QUESTIONNAIRE

In order to qualify for one of the *Landowner Liability Protections* (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "*Brownfields Amendments*") the *user* must provide the following information (if available) to the *environmental professional*. Failure to provide this information could result in a determination that "*all appropriate inquiry*" is not complete.

Site Address: 400 Open Bingham Street, Greensboro, NC 27401

1. **Environmental cleanup liens that are filed or recorded against the site (40 CFR 312.25).** Are you aware of any environmental cleanup liens against the property that are filed or recorded under federal, tribal, state or local law? Yes ☐ No ☒ If yes, explain:

2. **Activity and land use limitations (AULs) that are in place on the site or that have been filed or recorded in a registry (40 CFR 312.26).** Are you aware of any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the site and/or have been filed or recorded in a registry under federal, tribal, state or local law? Yes ☒ No ☐ If yes, explain:
Two amenities were funded through Land Water Conservation Fund (Shelter and Basketball Equipment)

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28).** As the user of this ESA do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business? Yes ☐ No ☒ If yes, explain:

4. **Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29).** Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?
Yes ☐ No ☐ If no, explain:
N/A

5. **Commonly known or reasonably ascertainable information about the property (40 CFR 312.30).** Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example, as user:
 - a. Yes ☒ No ☐ Do you know the past uses of the property?
If yes, describe: 1925 Sanborn Maps indicate a "City Incinerator" on located on the property site.

13. Are services outside the scope of a standard ESA required to address other business related risks? If so, please check the appropriate box(es):

- a. ☐ Geotechnical investigations
- b. ☐ UST/AST related testing
- c. ☐ Testing for asbestos-containing materials
- d. ☐ Testing for lead-based paint
- e. ☐ Testing for lead or arsenic or other substances in drinking water
- f. ☐ Wetlands delineation
- g. ☐ Determination of indoor air quality
- h. ☐ Determination of high voltage power line impact
- i. ☐ Determination of regulatory compliance
- j. ☒ Determination of cultural and historical resources
- k. ☐ Determination of ecological resources
- l. ☐ Determination of presence of endangered/rare species
- m. ☐ Inspection for industrial hygiene compliance
- n. ☐ Inspection for health and safety compliance
- o. ☐ Other: _____

Bingham Park
Greensboro, North Carolina

Dear Mr. LeGrand:

This letter serves as a request for any cultural, historical, or information on designated environmental areas within the boundaries of the above listed property located in Guilford County, North Carolina. The eight acre property consists of a city park. The property is located on Bingham Street (36° 4' 9" N:79° 45' 34"W) Greensboro, North Carolina.

Attached is a topographic map and aerial photograph with the site clearly outlined. If any additional information is needed please do not hesitate to contact me at 336.668.0093 or email jmstewart@kleinfelder.com.

Subject: Endangered Species and Cultural Resources Survey – Bingham Park, Greensboro, Guilford County

Dear Mr. Hay:

The Natural Heritage Program has no record of rare species, significant natural communities, significant natural heritage areas, or conservation/managed areas (other than Bingham Park itself) at the site nor within a mile of the project area. Although our maps do not show records of such natural heritage elements in the project area, it does not necessarily mean that they are not present. It may simply mean that the area has not been surveyed. The use of Natural Heritage Program data should not be substituted for actual field surveys, particularly if the project area contains suitable habitat for rare species, significant natural communities, or priority natural areas.

You may wish to check the Natural Heritage Program database website at www.ncnhp.org for a listing of rare plants and animals and significant natural communities in the county and on the quad map. Our Program also has a new website that allows users to obtain information on element occurrences and significant natural heritage areas within two miles of a given location:

<http://nhpweb.enr.state.nc.us/nhis/public/gmap75_main.phtml>. The user name is "public" and the password is "heritage". You may want to click "Help" for more information.

NC OneMap now provides digital Natural Heritage data online for free. This service provides site specific information on GIS layers with Natural Heritage Program rare species occurrences and Significant Natural Heritage Areas. The NC OneMap website provides Element Occurrence (EO) ID numbers (instead of species name), and the data user is then encouraged to contact the Natural Heritage Program for detailed information. This service allows the user to quickly and efficiently get site specific NHP data without visiting the NHP workroom or waiting for the Information Request to be answered by NHP staff. For more information about data formats and access, visit <www.nconemap.com>, then click on "FTP Data Download", and then "nheo.zip" [to the right of "Natural Heritage Element Occurrences"]. You may also e-mail NC OneMap at <dataq@ncmail.net> for more information.

Please do not hesitate to contact me at 919-715-8697 if you have questions or need further information.

Sincerely,

Harry E. LeGrand, Jr., Zoologist
Natural Heritage Program

Re: Bingham Park, Bingham Street, Greensboro, Guilford County, ER 10-0602

Dear Mr. Stewart:

Thank you for your letter of March 15, 2010, concerning the above project.

We have conducted a review of the project and are aware of no historic resources which would be affected by the project. Therefore, we have no comment on the project as proposed.

The above comments are made pursuant to Section 106 of the National Historic Preservation Act and the Advisory Council on Historic Preservation's Regulations for Compliance with Section 106 codified at 36 CFR Part 800.

Thank you for your cooperation and consideration. If you have questions concerning the above comment, please contact Renee Gledhill-Earley, environmental review coordinator, at 919-807-6579. In all future communication concerning this project, please cite the above-referenced tracking number.

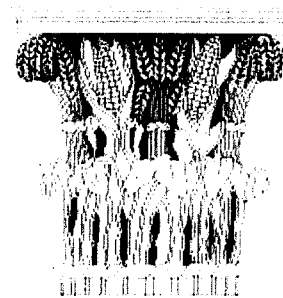

Sincerely,

Renee Gledhill-Earley

PB Peter Sandbeck

**NORTH CAROLINA LISTINGS IN THE
NATIONAL REGISTER OF HISTORIC PLACES
BY COUNTY**

As of January 1, 2010

Properties and districts are listed alphabetically by county. The date given is the date listed in the National Register. Use the "find" function in your browser to locate a particular county or property.

For each of the over 2700 listings below, there is a National Register nomination which describes the property or district, summarizes its history, and assesses its historical significance. Nominations may be examined at the office of the Survey and Planning Branch. Requests for copies of nominations of specific properties or districts are treated on a case-by-case basis, considering the extent of the request, staff time required to respond to the request, and the condition and temperament of the copy machine. Copies normally cost fifteen cents per page, plus mailing costs. Copies of individual nominations typically cost two or three dollars; copies of district nominations may cost ten dollars or more. For nominations of those listings marked "Archaeology," contact the Office of State Archaeology. Locations of some properties may not be made public.

PDFs of recent nominations (with sample photographs) are posted at <http://www.hpo.ncdcr.gov/nr/nrlinks.html> . We are adding PDFs of new listings as they occur, and working back through the roster to add nominations from years past.

Google Earth layers (KMZ files) showing point locations and boundaries of North Carolina National Register listings as of January 1, 2010, may be downloaded from our [Digital Policies and Resources](#) page (scroll to bottom to see links to the KMZ files).
